

AQUA VDA - Issues

#	Tracker	Status	Priority	Subject	Updated	Author	MODULES	Build Cycle	Assignee	Project	Target version	Category	Start date	Due date	Total estimated time	Created	Closed	Steps To Reproduce	Customer
5592	Unit Level and Cosmetic Issues	Future Release	Medium	Process VDA: In Function Analysis add a new Characteristic Branch, is added as a 1st row after refresh it is displaying in second row	05/08/2018 11:43 AM	Anonymous	VDA	Cycle 8		AQUA VDA			05/07/2018			05/07/2018 03:57 PM		1.Login to VDA 2.Select any production Item 3.Select Function Analysis menu ->At the Right frame window(name :Function Analysis) ->Right create new branch 4.Select the Function Analysis menu	

#	Tracker	Status	Priority	Subject	Updated	Author	MODULES	Build Cycle	Assignee	Project	Target version	Category	Start date	Due date	Total estimated time	Created	Closed	Steps To Reproduce	Customer
5557	Usability	Future Release	Low	Process VDA: Alignment Issues (Process Segment, Operation, Forum, Characteristics, Process Item Function, Create 4M, Work Element, Create Cause, Create Failure) . Please refer Screenshot	05/08/2018 11:39 AM	Anonymous	VDA	Cycle 7		AQUA VDA			04/30/2018			04/30/2018 06:38 PM		1.Login to EWQIMS Application 2.Goto VDA Module and Select the PI 3.Goto Process Menu and Click on Structure Analysis and click on Topic Segment select PI and right click 4.Click on Structure Analysis and click on Operation Icon 5.Click on Structure Analysis and click on 4M Icon 6.Click on Function Analysis and right click on Segment 7.Click on Function Analysis and right click on operation 8.Click on Function Analysis and right click on Characteristics 9.Click on Function Analysis and under characteristic right click and select Process Item Function 10.Click on Function Analysis and under characteristic right click and select Create FourM 12.Click on Function Analysis and under characteristic right click and select Work Element Function 13.Click on Failure Analysis and under characteristic right click and select create Cause 14.Click on Failure Analysis and under characteristic right click and select create Effect	
5540	Usability	Suggestion	Low	Design VDA: In Failure Analysis, Without adding the Failure in System then if try to add failure in Subsystem, then some alert should display	04/26/2018 05:37 PM	Anonymous	VDA	Cycle 7		AQUA VDA			04/26/2018			04/26/2018 05:37 PM		1.Select a Production item 2.Click on Design VDA tab 3.Select Failure Analysis do the flow down from System to Subsystem and make sure there is no failure added in System	

#	Tracker	Status	Priority	Subject	Updated	Author	MODULES	Build Cycle	Assignee	Project	Target version	Category	Start date	Due date	Total estimated time	Created	Closed	Steps To Reproduce	Customer
5539	Usability	Suggestion	Low	Design VDA: In Function & Failure Analysis, While dragging and dropping the flow down from component level to system level then some alert message should display	04/26/2018 05:27 PM	Anonymous	VDA	Cycle 7		AQUA VDA			04/26/2018			04/26/2018 05:27 PM		1.Select a Production item 2.Click on Design VDA tab 3.Select Function Analysis drag and drop the flow down from component level to system level	
5475	Usability	Suggestion	Medium	Design VDA: In Function and Failure Analysis, in Tree View unable to Add Function and Requirement	04/16/2018 11:29 AM	Anonymous	VDA	Cycle 6		AQUA VDA			04/16/2018			04/16/2018 11:29 AM		1.Login to EWQIMS Application 2.Goto VDA Module and Select the PI 3.Goto Function Analysis and select Tree view 4.Goto Failure Analysis and select Tree view	
5474	Bug	Future Release	Medium	Design VDA: In Failure Analysis, when multiple requirement is there for one function then right click on last row Requirement ID and Create Branch the empty row is generated below the 1st row. Please refer screenshot	05/04/2018 03:07 PM	Anonymous	VDA	Cycle 6		AQUA VDA			04/16/2018			04/16/2018 11:06 AM		1.Login to EWQIMS Application 2.Goto VDA Module and Select the PI 3.Goto Failure Analysis in Table view add 1 function and multiple requirement then right click on last row Requirement ID and Create Branch	
5466	Bug	Future Release	Medium	Design VDA: In Block Diagram, under Add/Remove Elements uncheck the parent element and click ok, in block diagram Child element is displayed again click on Add/Remove Elements button then child element is unchecked	05/04/2018 03:04 PM	Anonymous	VDA	Cycle 6		AQUA VDA			04/13/2018			04/13/2018 01:32 PM		1.Login to EWQIMS Application 2.Goto VDA Module and Select the PI 3.Goto Block Diagram select change the Context Element 4.In Block Diagram, under Add/Remove Elements uncheck the parent element and click ok 5.Again Click on Add/Remove Elements	

#	Tracker	Status	Priority	Subject	Updated	Author	MODULES	Build Cycle	Assignee	Project	Target version	Category	Start date	Due date	Total estimated time	Created	Closed	Steps To Reproduce	Customer
5272	Bug	Future Release	Medium	When selecting multiple data, system is displaying only one data in following pages.(Refer Description)	05/04/2018 05:46 PM	Shankar Narayanan	VDA	Cycle 4		AQUA VDA			04/04/2018			03/23/2018 06:00 PM		1.Select a Production item 2.Click on Process VDA tab 3.Select Functional/Failure analysis tabs 4.Right click on created operations and enter the data 5.Select multiple data 6.observe the result 7.In Structure Analysis under 4M icon click on 4M Icon and create Man,Material,Method and Machine, select Man,Material,Method & Machine and click on done button, only Man is displayed whereas Man,Material,Method & Machine should display	
5145	Bug	Future Release	Medium	Optimization - Following issues occurs in Date Picker field.(Refer Description)	05/08/2018 11:52 AM	Shankar Narayanan	VDA	Cycle 4		AQUA VDA			03/21/2018			03/21/2018 02:48 PM		1.Select a Production item 2.Click on Design VDA tab 3.Add Cause for the selected PI 4.Select Failure Analysis tab 5.Right click on the Cause table and select Optimization 6.Select Revision date and Preventive Completion Date 7.Observe the Result	
4985	Bug	Future Release	Medium	Tree diagrams - In tree diagrams unable to add function, requirement and failure(Page cannot be scrolled)	05/04/2018 03:00 PM	Shankar Narayanan	VDA	Cycle 1		AQUA VDA			03/01/2018			03/01/2018 06:02 PM		1.Select a Production item 2.Click on Design VDA tab 3.Select functional/Failure analysis 4.Add function, requirement in tree 5.Observe the result
