759	Bug	New	Medium	While deleting a published document from Aqua, a job is added in Batch manager with an error.	04/11/2017 03:42 PM	Smitha V	DOCPRO	Cycle 1	Jacqueline Antonette	Micron			04/11/2017			04/11/2017 03:42 PM		<ol style="list-style-type: none"> 1. Login as Docpro module admin. 2. Click on a document published from Aqua 3. Right click and select Change request 4. Delete the published document. <p>Issue: A job without Name is created in Batch manager with an error. But the document get deleted.</p>	
728	Bug	TBD	High	The revision no.of the document is incremented when published again after the earlier revision is terminated during inconversion	04/06/2017 03:36 PM	Smitha V	DOCPRO	Cycle 1	Jacqueline Antonette	Micron			04/06/2017			04/06/2017 03:36 PM	04/06/2017 03:36 PM	<ol style="list-style-type: none"> 1.Log into Aquapro and publish an existing document from Aqua.(for eg. revision no.2) 2. After the approval process, the document will be in In conversion status. 3. Terminate the document 4. Again publish the same document from Aquapro 3. Log in as Docpro module admin and click on Administrator Actions. <p>Issue: The revision no. of the published document is incremented by 1 (ie, it became rev 3) instead it should be 2</p>	
680	Bug	New	Low	The alert 'Incremental unit cannot be zero' is missing if incremental unit for the document number starts with 0	03/22/2017 02:21 PM	Smitha V	DOCPRO	Cycle 1	Jacqueline Antonette	Micron			03/22/2017			03/22/2017 02:21 PM		<ol style="list-style-type: none"> 1.Login to EwQIMS as a Doc pro Administrator 2.Click on Doc pro module 3.Click on folder management menu 4.Select the level 5. Select the Document number options as Document Number Auto Increment 5.Enter incremental unit as "0" 6.Click save <p>Issue: The alert 'Incremental unit cannot be zero'is missing</p>

655	Bug	New	High	The rich text box is not displayed while rejecting a document(Reject reason) and in New Document request (Reason for request). A JS error occurred(IE 8)	04/17/2017 01:35 PM	Smitha V	DOCPRO	Cycle 1	Jacqueline Antonette	Micron			03/21/2017			03/21/2017 03:05 PM		<ol style="list-style-type: none"> 1. Login as Docpro user and click on New Document Request. 2. Create a new document request and the Reason for request is not displayed. <p>Issue: The reason for request is not displayed in New document request and a js error occurred. Also when an approver tries to reject a document, the reason for reject field is not displayed</p>	
636	Bug	TBD	Medium	The document id is different when the first document is published and deleted and again published from Aqua.Also there is a mismatch in the revision no. in revision history summary	03/20/2017 02:36 PM	Smitha V	DOCPRO	Cycle 1	Jacqueline Antonette	Micron			03/20/2017			03/20/2017 02:35 PM	03/20/2017 02:36 PM	<ol style="list-style-type: none"> 1. Log in to Aquapro and publish a document from Aqua to a level with document number as internal document id. 2. Now delete the newly published document from Docpro. 3. Again publish the same document from Aqua. <p>Issue: The document id is different from that of first published document but the revision number of second document is displayed as 2. Also when checked the revision history summary of second document only revision no.2 will be displayed</p>
